I'm Coming Home

Fireside

Do you wonder where I am
What I kept away
Don't ask again
If you question what I am
Hide away your pain
Don't ask again
Do you miss the way I am
Tell me cause I'm coming homeI'm coming homeI've got nothing I can share
Nothing but the pain
Of being away too long
If I really am to blame
Please don't walk away
Talk it over
When I said I didn't care
Well that was just to tell
If you loved me
If you'd only feel the same
What else can I say But I love youI'm coming home
