

# Radio

## The Royal Concept

You're like a rebel on a wire  
You gotta fight them till you're bleeding  
You're like a voice through the sirens  
They're gonna miss you when you leave them And I thought he was a loner, stoner  
Nothing's gonna bring him back  
And everyone says it's the radio, radio  
Everybody come together forever  
Not much, it's just a heart attack  
And everyone says it's the radio, radio You're gonna hit him with your best shot  
You're hardly ever gonna miss him  
You said you wanna start a fight  
I'm gonna miss you when it's all done And I thought he was a loner, stoner  
Nothing's gonna bring him back  
And everyone says it's the radio, radio  
Everybody come together forever  
Not much, it's just a heart attack  
And everyone says it's the radio, radio Never gonna give it away  
Whatever they say, whatever they say, no  
I'm never gonna give it away  
I'm keeping it safe, I'm keeping it safe for you And I thought he was a loner, stoner, a loner  
And I thought he was a loner, stoner, a loner  
Everybody come together forever  
Not much, it's just a heart attack  
And everyone says it's the radio, radio And I thought he was a loner, stoner  
Nothing's gonna bring him back  
And everyone says it's the radio, radio
