Live On

Sloan

You know you're wrong
That you should know much better
You're coming on way too strong
A force gale in stormy weather
A cold wave crashing on
Across the ocean building pressure
And it'll go off before too long
And this is your lifeBut you're giving it up this time
'Cause you can't live without it
You're giving it up this time'Cause this is your lifeLive OnIt's out of your hands
It's not what you planned
But it keeps knockin' you overAnd if you ask me
It's easy to see
How it keeps rippin' you off
You're on your own'Cause it's just better that wayYou're on your own
Yeah this is your lifeBut you're giving it up this time
'Cause you can't live without itYou're giving it up this time
'Cause this is your lifeYou're on your own
'Cause it's just better that wayYou're on your own
Yeah this is your life'Cause you can't live without it
You're giving it up this timeYou're giving it up this time
'Cause this is your life yeah
Live OnGiving it up this time
