

# Take It To The Bridge

## Crazy Town

Tripple X bottle, role models from hell  
Livin' our dreams we like to scream and yell  
White boys, be-Boys raised in the gutter  
I said when I'd grow up I'd be a bad motherfucker  
Nothings gonna stop me now, I'm breaking the rules  
I'm gonna do it if it's not allowed  
Thought I wouldn't when I would, would when I wouldn't  
I did it for the reason everybody said I couldn't  
I'm putting my best foot down like what now  
Lets take it to the bridge and jump the fuck down  
Fuck it like a clown jump off a building in a bucket  
The worst is yet to come, here it comes so bum rush it

Would you jump off a bridge if I told you to  
Would you change the way you live if I told you to  
Would you jump off a bridge if I told you to  
Well take it to the bridge and jump the fuck off [2x]

Are you ready to jump? Are you ready to leap?  
Well the head rush is heavy but for many too deep  
I ain't said much too many but the words on the street  
That were speeding up the world to keep the timing on beat  
It keeps reminding everybody who's a pyramid freak  
The pyramid eye, the figure inside  
The leader that you follow the day that you die  
We always bring it live which makes it easy to choose  
Ain't now grieving or consoling or singing the blues  
So when the levee breaks just remember the drums  
And when the levee breaks don't forget how to run  
Remember what I've done and everything I say  
I'm living proof that you can jump and live to try it again

Would you jump off a bridge if I told you to  
Would you change the way you live if I told you to  
Would you jump off a bridge if I told you to  
Well take it to the bridge and jump the fuck off [2x]

I'm torn like Korn playing follow the leader  
In a baggy pair of dickies and a dirty wife beater  
Should the rate a CD like a movie in a theater

Should they blame it on me? I say we blame it on you  
Or blame it on the world there's no excuse for the things we do  
Life's a maze I'll be amazed if I find my way through  
One, two, tell me whatchya gonna  
You gonna jump off the bridge like I told ya to  
That's right, bum rush the stage  
Whatchya made of, how much more can you take  
Half of my life's been one big mistake  
But no ones gonna take my place  
One, two, tell me whatchya gonna do  
Your gonna jump off the bridge like I told you to  
That's right, bum rush the stage  
What you made of? how much can you take

Would you jump off a bridge if I told you to  
Would you change the way you live if I told you to  
Would you jump off a bridge if I told you to  
Well take it to the bridge and jump the fuck off [2x]

Monkey see and monkey do  
Monkey see and monkey do  
Monkey see and monkey do  
Don't try to be like me you gotta be like you  
If you can hear this your catchin' the contact  
If you can hear this your bumpin' the sound  
If your in the earshot your catchin' the contact  
If you can hear this your bumpin' the sound

Jump off a bridge if I told you to  
Jump off a bridge if I told you to  
Take it to the bridge and jump

---
