

Hazing Out

Bang Gang

You got to live high (live high)
Then you can die
If you have it all
In your heart
No need to crawl
You got to live high (live high)
Then you can die
If you have it all
In your hand
No need to crawl
You got to live high (live high)
Then you can die
If you have it all
In your heart
No need to crawl
You got to live high (live high)
Then you can die
If you have it all
In your heart
No need to crawl
