## **Hazing Out**

## **Bang Gang**

You got to live high (live high)

Then you can die

If you have it all

In your heart

No need to crawl

You got to live high (live high)

Then you can die

If you have it all

In your hand

No need to crawl

You got to live high (live high)

Then you can die

If you have it all

In your heart

No need to crawl

You got to live high (live high)

Then you can die

If you have it all

In your heart

No need to crawl
