

Speak Free

Incubus

You took our lives away
To increase your self esteem
An underlie in the public eye
Your dubbed insane if and when
You try to speak your mind in your own way Ignore the past and speak free
You smashed glass eyes just to say
"It all is all that I need"
What you see is a reflection of my choice
And what it means to me Trapped in your cell
A mindless plot against own eyes
To simplify your hell
Just ease my pain
