Crawl

Anthrax

Sometimes I forget to see
Now that I've found you
What is and what will never be
Now that I've found you
When my time has gone away
The words I say
Their lies will help you through
And I feel like it's gonna rain
A real rain
To wash this from you too, ooh
So addicted to the pain
And it's the pain that drove you crazy
Your mind is closing in
On a fight that you can't win
It's making me insane
If you crawl
I'll follow, I'll follow
Don't walk away
If you fall
I'll follow, I'll follow
Don't walk away
I think of things that just got lost
Now that you find me
As if I had just had shuffled off
Now that you find me
When my time had gone away
The actions played
They broke your world in two
And I feel like it's gonna rain
A real rain
To wash this from me too, ooh

So addicted to the pain
And it's the pain that drove you crazy
Your mind is closing in
On a fight that you can't win
It's making me insane
If you crawl
I'll follow, I'll follow

Don't walk away
If you fall
I'll follow, I'll follow
Don't walk away
Crawling, crawling, crawling, crawling
Crawling, crawling, crawling, crawling
What is and what will never be
And it's the pain that makes you crazy
If you crawl
I'll follow, I'll follow
Don't walk away
If you fall
I'll follow, I'll follow
Don't walk away
If you crawl
I'll follow, I'll follow
Don't walk away
If you fall
I'll follow, I'll follow
Don't walk away
Crawling
What is and what will never be
And it's the pain that makes you crazy
