

Know What It Means

Project 86

Remember what it's like to be you?
Remember what it's like to be me?
All that I see these eyes in my dreams
These thought, police coming for meDo you know what it means
What it means to be free, neither do I, neither do we
Do you know what it means
To be free, neither do I, neither do weDo you know what its like to be one
Do you know what its like to be one
One is the family perfect in apathy
Being a clone isn't all that it promised to beDo you know what it means
What it means to be free, neither do I, neither do we
Do you know what it means
To be free, neither do I, neither do weI am invisible just like you
Just a reflection of what I consume
Now I myself will be consumed
Consumed for the sake of youDo you know what it means
What it means to be free, neither do I, neither do we
Do you know what it means
To be free, neither do I, neither do weDo you know what it means
What it means to be free, neither do I, neither do we
Do you know what it means
To be free, neither do I, neither do we
