

Feeling Electric

Parade of Lights

[Verse 1]

I remember when I saw you
You know I couldn't look away
You're the spark that starts a fire
Tell me, do you feel the same[Chorus]
So give me one more shot tonight
I will tell you if my heart stops beating right
Let me show you that the only thing I know
No matter where we go
I feel just like we did when we connected
Feeling electric

Feeling electric[Verse 2]

You can tell me all your secrets
I will never tell a soul
I'll make a promise and I'll keep it
I will never let you go[Chorus] (x2)
