

Turn Out the Stars

Bill Evans

Turn out the stars
Turn out the stars
Let eternal darkness hide me,
If I can't have you beside me
Put out their fires,
There endless splendor,
Only reminds me of your tenderness Stop the oceans roar,
Don't let the rivers run
Let me hear no more,
The wondrous music
of a skylark in the sun
Let it be done
Turn out the stars
Turn out the stars
Shut off their light
Stop every comet
in it's magic lonely flight
Let there be light
Turn out the stars
