I Wanna Live

Wilatoma

I see my future shuffling
A shakey step at a time
I got no choice but careful
Thank God, I've done my crime
The tools I see on TV
Can't stand it when they fake
A prick's a prick at any age
Why give one a break?
I wanna live a little bit longer
I wanna live a little bit longer now
I wanna live a little bit longer
I wanna live, live, live, live, live
The soul is in the eyeball
For anyone to see
I'm better than a Pepsi
I'm cooler than MTV
I'm hotter than California
I'm cheaper than a gram
I'm deeper than the shit I'm in
And I don't really give a damn
I wanna live a little bit longer
I wanna live a little bit longer now
I wanna live a little bit longer
I wanna live, live, live, live, live
Step up it's fight time
Kick scratch and bite time
Ain't talking about no more fun
But that don't bother my bad ass none
I wanna live a little bit longer now
I wanna live a little bit longer
I wanna live, live, live, live, live
(Just a little bit longer)
I wanna live, live, live, live, live
(Just a little bit longer)
I wanna live, live, live, live, live
(Just a little bit longer)
I wanna live, live, live, live, live
(Just a little bit longer)
I wanna live, live, live, live, live

(Just a little bit longer)
I wanna live, live, live, live, live
(Just a little bit longer)
