At the Same Time

Eric Roberson

Can't believe girl who we are
How we've grown so far apart
I wish I would of known this from the start
That your heart I would lose
Now I look back I should of known
My actions would lead to nights alone
Even bringing new girls to my home
It feels wrong
Cause they're not you
And they never will
Be able to replace
Who I love and how I feel
Everything I miss
Starting with the words
I love you rollin off your lips
Every little kiss
Wish to regret em
But I just reminisce
About the time we had
Wish I could have it back
I wish we had a choice on who we love
I wish I had a choice on who I was dreaming of
Cause I wake with you on my mind
Too bad we didn't fall in love at the same time
