

# At the Same Time

[Eric Roberson](#)

Can't believe girl who we are  
How we've grown so far apart  
I wish I would of known this from the start  
That your heart I would lose  
Now I look back I should of known  
My actions would lead to nights alone  
Even bringing new girls to my home  
It feels wrong  
Cause they're not you  
And they never will  
Be able to replace  
Who I love and how I feel  
Everything I miss  
Starting with the words  
I love you rollin off your lips  
Every little kiss  
Wish to regret em  
But I just reminisce  
About the time we had  
Wish I could have it back  
I wish we had a choice on who we love  
I wish I had a choice on who I was dreaming of  
Cause I wake with you on my mind  
Too bad we didn't fall in love at the same time
