

My Stars (Live Version)

Alice Cooper

My stars
So far
No one's callin' me home
Space brain
Vagabond
Living on my own Come on you faithful
You know all you people should come to me
I'll make you arms work
And I'll make your legs work
I'll make you see
Ladada dadada dadada dadada da da
Whoa, yeah Well I swear by the air
I'll be made to breathe
You'll pay very dear for this banishing deed
The power alone stored in my little hand
Could melt the Eiffel Tower
Turn the Sphinx into sand Oh no
Thar she blows
Spreadin' crazy news
All night
Cannonball
Loves to light the fuse And everyone blows up
And nobody grows up to fill Dad's shoes
But that doesn't matter
'cause no little boys really wanted to Ladada dadada dadada dadada da da
Whoa, yeah I stared at the squall line
I stared at the fault line
I see a funnel black there
I think I see a crack there
Landscapes alive
And it's moving my feet
All I need's a Holocaust
To make my day complete
