

# Feed the Bubbles

## Disaster In The Universe

Give in to the time I'm exhausted  
Let's go spending  
Empty features  
Mind dismantling I slumber my way out of the  
Comfort zone, from here it seems like bubbles  
Lazy afternoon, was that really the news?  
I'm confused because I'm sheltered from the troubles  
All the exits closed, can look no other way  
Put it all aside Blow  
Feed the bubbles  
Meet the struggle  
How exhausting  
'Cause I don't know  
It's ok Oh  
Mind dismantling  
I'm exhausted
