# Were Before

## Cults

(Verse 1)
I met you on the sidewalk
I hoped you were the way you were before
Don't give into the small talk
Don't give up on the things that we adoreOh yes, you know I'm like that
I like you like the way we were before
Still got some things to forget
These days just walking around here's such a chore(Chorus)
We both need it all and more
Just the way we were before
x2(Verse 2)
I'm pleased to see that old walk
Skipping all the cracks on the concrete
These days have gotten real tough
(?) like you ever seemed
I've been around a few blocks
I chased away the cobwebs in the street
I wind up all the old clocks
So we can say we never skipped a beat(Chorus)Cause we like that
Just like the way we were before
It's all mixed up
But that's just what we have in storeYou can't fix that x4
