Dink's Song

Jack Elliott

Could this be magic, my dear, my heart's all aglow?
Could this be magic, loving you so?
Could this be magic, my dear, having your love?
My prayers were answered so far from above
I thought that it would be just a memory
To linger my heart in pain
But too much cries, I opened up my eyes
And I'm with you, dear, once again
Could this be magic, my dear, having your love?
If this is magic then magic is mine
Could this be magic then magic is mine
