Baby Boy

Big Brovaz

From the day that I saw you
If knew that we would pursue
'Cause the chemistry we felt that day
Felt so real, and so trueLooking back on a year we spent together
How its been, what we went through
Although weve had our little ups and downs
Weve still pulled throughBaby girl youre my world my everything
I wanna lace you with diamonds and every ring
Give you everything you dream and fantasize
Cause you can tell me that you love meLooking in my eyes you keep it real with me
I keep it real with you you keep on loving me
Ill keep on loving you keep doing what you do
I feel your whole aura and I cant wait to hook up
Again tomorrow baby whatMy love for you will never end
Youll always be a part of me
As long as time keeps on passing by
Youll always be my baby boyEvery time I look at you, I cant believe
Ive found a love so true and I took my time to put my trust in you
I must admit it was so hard to do and every minute that I spend with you
You make me believe I have nothing to lose and
Deep down I always knew that you would be mineDo you believe in destiny??
Because I got a funny feeling this was meant to be
Without you Id be lost, I need you next to me
Preferably in the house filled with luxuries and little kidsFrom day one I was sprung, knew you was gonna be one
Cause my heart spoke for the very first time in a long while
And every time you smile, I can see us walking up the aisle
With you carrying my child cmonMy love for you will never end
You'll always be a part of me
As long as time keeps on passing by
Youll always be my baby boyIf you were to go, I dont know
Youre the only one who sweeps me off my feet
Makes my soul go weak
The only one who makes my heart wanna beat and II could never live without you
You know that what I feel has to be true
'Cause youre my, my sweet loveEver since the first time, that I looked into your eyes
I knew that you were gonna be mine
Feeling you from the inside, when youre not by my side
Youre the only girl thats on my mindI never knew a love like this, a love so strong

A vision so picture perfect it could never be wrong
Along the way, youre gonna see you belong with Jay
I might have to marry you one day baby, yeahMy love for you will never end
You'll always be a part of me
As long as time keeps on passing by
Youll always be my baby boy
