Apartment 26

Finished looking for the answers
Now I'm looking for the questions
I can look into you mirror and see inside your head
See my reflections and this is what I've bled
I look right into your mirror but I can't see meChorus:
Everything's gone backwards
Nothing's what it seems
I awake from my nightmares
Smash the mirror, smash the dreamsBackwards into future
Now you're making up for lost time
I hide under the shadow and try to hide my name
Eyes that will question and this is what I mean
I look back into the mirror
But still don't see meChorus (2x)Smash the mirror, smash the dreams (3x)Chorus (2x)Smash the mirror, smash
the dreams (3x)
