

# Possibilities

## Floetry

So many possibilities  
So many ways to go  
So many things to choose from  
All the things that I could know  
I can learn and I can grow  
I can do and I can know  
I can see and I can be what I will  
I can write my story of life and glory  
The pages are mine to fill

What will I be  
Where will I go  
What will my path be  
When will I know  
My life is spread before me  
I see  
Possibilities

So many possibilities  
So many ways to go  
So many things to choose from  
All the things that I could know

I will work and I will do  
I will always make it through  
I will learn my way to take and to give  
I will take my journey  
And while I learning  
I'll never forget to live

What will I be  
Where will I go  
What will my path be  
When will I know  
My life is spread before me  
I see  
I see, Oh!

What will I be  
Where will I go

What will my path be  
When will I know  
My life is spread before me  
I see

Possibilities  
Possibilities  
Possibilities  
Possibilities  
I see!

Possibilities!
