El President

Bram's

(I. Monteiro)
Yeah yeah ya...
Came from the skies
Burst through the gates
With no mercy or disguise
With their hearts set out in flames
I know; I've seen the masterplan...
Well I'm just a man (I am just a man)
I'm not giving in
All the people understand
'Cos they all fell down and prayed
I know; I've seen the masterplan:
"Kill the President"
They killed the President
They killed the President
Came from the skies (Came from the skies)
In all shades of green
We can always justify
We can measure up your dreams
I know; I've seen the masterplan:
"Kill the President"
They Killed the President
Yeah yeah ya...
Yeah yeah ya...
Yeah yeah ya...
They killed the President
They've killed the President
I'm just a man
