Robinson

She forgets my name
When she don't forget
When she don't forget at all
She forgets my name
When she don't forget
When she don't forget at allWhy she forget me when
I remember
When I remember it all
Why she forget me when
I remember
When I remember it allShe forgets my name
When she knows I know
She remembers all
She forgets my name
When she knows I know
She remembers allWhy she forget me when
I remember
When I remember it all
Why she forget me when
I remember
When I remember it all
She forgets my name
When she don't forget
When she don't forget at all
