Je Viens de La

Two Door Cinema Club

One, two, threeI remember the frozen sun
Take me back, take me back, take me
What a gift for the chosen one
Heart attack, no way backOh, the madness comes
I've got nowhere left that I can run
I could sleep for days
Maybe when I find just such a mysterious placeSo tell me something
Show me the world I'm searching for
And take me home
I said just one thing
All that I could say before I'm goneSo tell me something
Show me the future
Where the different side can make it better now
I'll take the suffering
I've got to know, I've got to knowEverything that I've got was lost
What a world, what a world, what a
One hit and I'm taking off
Find that girl, find that girlOh, call me insane
'I just get excited by the change'
Come on the thirteenth day
Picture falling faster and with nothing left to saySo tell me something
Show me the world I'm searching for
And take me home
I said just one thing
All that I could said before I goneSo tell me something
Show me the future
Where the different side can make it better now
I'll take the suffering
I've got to know, I've got to knowIf I'd imagine it all
Did nothing happen at all?
I was chosen to fall
Through time inside my mindAnd I'm never gonna let you go
No matter how they're trying to find me
I'm just a man
On the truckAt the expense of sanitySo tell me something
Show me the world I'm touching
Before you take me whole
I said just one thing

All that I could said before I goneThree, two, one
