

# Organised Crime

## Naz aka Naz

There's a man who takes your wallet  
There's a man who takes your beer  
There's a man who takes your woman  
There's a man who just takes you He's a government official  
That's what his papers say  
He's a government official  
And he takes you every day There's a man who takes your cigarettes  
There's a man who takes your car  
There's a man who takes the piss out of you  
But the biggest thief by far He's a government official  
Knocking on your door  
He's a government official  
Coming back for more He's organised  
Organised crime  
Organised crime He's organised  
Organised crime  
Organised crime There's a man who takes your petrol  
There's a man who takes your food  
There's a man who takes your place in the queue  
There's a man who just takes you He's a government official  
Checking up on you  
He's a government official  
There's nothing you can do He's organised  
Organised crime  
Organised crime He's organised  
Organised crime  
Organised crime He's organised  
Organised crime  
Organised crime He's organised  
He's organised crime  
Organised crime
