

I Must Go

Lindsey Buckingham

I've been trying to get you
Hey little girl, leave the little drug alone
I just can't seem to get through
Hey little girl, leave the little drug alone
You leave in the morning but you don't come back
Hey little girl, you're leaving me all aloneHey little girl, you're on the wrong track
Hey little girl, leave the little drug aloneI've been waiting, contemplating, now I know . . .
If you're aching, heart's breaking, let the four winds blow . . .And this is why I must go
Why I must go
Why I must go
Why I must go
I must go
