Cheat On Me

Bad Boy

ooohhhhhhhh

I could feel it coming on
It was long overdue
You told me I'm telling you
You hurt me before
You'll hurt me again
Why can't I say it's the end?

How could you do it to me?
How could you cheat on me?
How could you do it to me?
How could you cheat on me?

I told you look but don't touch
But something inside
Drives you on to steal all my pride
There be no more lies
It could never be the same
Now that I know your little game.

How could you do it to me?
How could you cheat on me?
How could you do it to me?
How could you cheat on me?

You know I tried and tried
But I can't hold out any longer
You know I tried and tried
But I'm not getting any stronger

How could you do it to me?
How could you cheat on me?
How could you do it to me?
How could you cheat on me?
How could ya how could ya
How could you do it to me?
Cheat on me
How could you cheat on me?
How could you do it to me?

oooo hhoooo
How could you cheat on me?

Cheat on me

How could you do it to me?
How could you cheat on me?
How could you do it to me?
How could you cheat on me?
How could ya how could ya
How could you do it to me?
Cheat on me
How could you cheat on me?
Cheat on me
How could you do it to me?
oohh yaaaa
How could you cheat on
How could you cheat on
How could you cheat on
