

# Quiet Little Place

## K's Choice

In this quiet little place  
I can't remember having known a different pace  
In this quiet little place  
I can surrender to the beauty of its face And now everything I see  
Whether it's an airplane or a tree  
It makes me wonder  
About the things I must have missed  
And the chains around my wrists  
They are no longer Ohh ohh ohh  
Ohh ohh ohh In this quiet little place  
I can't imagine what it's like to be back home  
Where they care about what time it is  
And spend their days answering the phone And now everything I feel  
Whether it's fiction or it's real  
It's so much clearer  
Like the color of this light  
It seems more dangerous and bright  
But I don't fear her And slowly it fades  
I'm back in the race  
I have to fight it, I know  
I don't want to go away  
Hey hey hey  
(Hey hey hey) In this quiet little place  
You run your fingers through my hair and whisper "Hey"  
And no matter how I try, can't seem to think  
Of anything better to say
