Ghost Town

Advisory - the following lyrics contain explicit language:

I dare you to come closer
I dare you to get close
I dare you to come closer
It's just makin' me sick (Bleh) I'm done wasting my time
How can you live like this I tried to be your friend
But you were fakin'
After everything we've been through
I seized you from yourself
When you had no one else Now you walk past me like you don't know me
But you wouldn't be alive if you didn't kill me At night, when you had no where else to go
You were dying on the phone
Sick to your stomach on the floor
That night when you had no one else to call
Sick to your stomach on the floor
You were calling me like "Doctor, doctor, doctor" Enjoy living to these expectations
So realize I don't expect a thing
So open up a little, so see the riddle
Spent every minute, thinking how you used me Now you walk past me like you don't know me
But you wouldn't be alive if you didn't kill me At night, when you had no where else to go
You were dying on the phone
Sick to your stomach on the floor
That night when you had no one else to call
Sick to your stomach on the floor
You were calling me like "Doctor, doctor, doctor" (Doctor x4) You were callin' me like doctor Welcome to this
crappy ending
Seek the opportunity, so I assume we should end this
Maybe if we just put this behind us
Take off this blindfold and see how we got dressed Now you walk past me like you don't know me
Spending your nights out with all my homies
Maybe if you just cut out your ego
Sever the tattoo, giving you reason Many last nights you asked me nice
But your world won't break, so your grasp I'll take

Well shit, I'm over it
At night, when you had no where else to go
You were dying on the phone
Sick to your stomach on the floor
That night when you had no one else to call
Sick to your stomach on the floor
You were calling me like "Doctor, doctor, doctor"
At night, when you had no where else to go
You were dying on the phone
Sick to your stomach on the floor
That night when you had no one else to call
Sick to your stomach on the floor
You were calling me like "Doctor, doctor, doctor"
Worst Friends Forever
