

When She Comes Down

[Lindsey Buckingham](#)

"When She Comes Down"
She is waiting
She is waiting
She is dreaming
She is dreaming
And we're all going to meet her
Yes we're all going to meet her
When she comes down
When she comes down
She is watching
She is watching
She is hoping
She is hoping
And we're all going to meet her
Yes we're all going to meet her
When she comes down
When she comes down
Now she's dancing
Now she's calling
Now she's laughing
Now she's falling
And we're all going to meet her
Yes we're all going to meet her
When she comes down
When she comes down
When she comes down
When she comes down
