

I Never Wanted To (live)

Saosin

We've had one chance to
Take back, but over and over again
I'll clean your wounds tonight
So we can rewind it all until i come inside
I'll tear in two and never lie to you
Cause you wouldn't take me home
Your eyes are yet to be clear now
Cause you wouldn't take me home
You were right and i wasn't listening
I never told you what you were missing

I never wanted to hear, (i never wanted to)
We are the only ones we are running from
I never wanted to hear, (i never want to)
We are the only ones we are running from

This was the only way we knew how
To make everything just okay
I'll make it up tonight
The sun was two steps too close with his waking eyes
We'll make believe that everything's alright
Cause you wouldn't take me home

Your eyes are yet to be clear now
Cause you wouldn't take me home
You're right i wasn't listening
I never told you what you were missing
I never wanted to hear, (i never wanted to)
We are the only ones we are running from
I never wanted to hear, (i never wanted to)
We are the only ones we are running from
I never wanted to hear (i never wanted to)
We are the only one we are running from
I never wanted to hear
We are the only ones we are running from

I want to break it off
We should stop cause theres nothing going on

I never wanted to hear all of the things that you told me

You wanted to tell me
I never wanted to hear, (i never wanted to)
We are the only ones we are running from

I never wanted to hear,
I never wanted to hear
We are the only ones we are running from
I never wanted to hear (i never wanted to).
