Silent Wars

Arch Enemy

Lyrics: Angela GossowThis is killing us
Fighting the truth a losing battle
We believe in nothing
Just hatred for each otherTragic sinister serenade
twisted melodies shatters reality
Dying hopes for a better day
Fragile dreams that break awayNo more No more This pain Must endWe have chosen to suffer
Believe in nothing but...Hatred is a vicious circle
Betrayal is at hand
paralysed souls bleeding
begging for salvation
deeper and deeper the wounds we cut
the truth burning our flesh
Silent wars to set us free
Stigmata of a tragedyNo more No more This pain Must EndLead - Christopher Amott
Lead - Michael AmottWe have chosen to suffer
Feeling nothing - but hate
It's eating us up from the inside
Taking out feelings away
