Right This Time

Lit

Fell in love, felt alive
Fell apart, even lost my mind
About a thousand times.
Can't say I didn't try, learnt to run
Never learnt to fly.
Could get that high?
Broken hearts, slowly roads
Where it starts no one knows
I'm holding on 'cause
I-I I think i got it right this time,
Baby it was worth a ride,
Knowing where I belong, how could this be wrong?
I think I got it right this time.
Take it slow, make it fast
Either way we're gonna make it last
Never look back. I could see me with you
And it's crazy, all the crazy thing I wanna do to you
Cause' I-I I think i got it right this time,
Baby it was worth a ride,
Knowing where I belong, how could this be wrong?
I been close before, but I-I
I think I got it right this time.
Baby it was worth a ride,
Knowing where I belong, how could this be wrong?
I think I got it right this time.
[Guitar strings]
Fell in love, felt alive
Fell apart, even lost my mind
About a thousand times.
I think I got it right this time.
Baby it was worth a ride,
Knowing where I belong, how could this be wrong?
I think I got it right this time.
Ye-yeah, I think I got it right this time.
