

# Tear You Apart

## She Wants Revenge

Got a big plan, this mindset maybe its right  
At the right place and right time, maybe tonight  
And the whisper or handshake sending a sign  
Wanna make out and kiss hard, wait never mind

Late night, and passing, mention it flipped her  
Best friend, who knows saying maybe it slipped  
But the slip turns to terror and a crush to light  
When she walked in, he froze up, believe its the fright

Its cute in a way, till you cannot speak  
And you leave to have a cigarette, your knees get weak  
An escape is just a nod and a casual wave  
Obsessed about it, heavy for the next two days

It's only just a crush, it'll go away  
It's just like all the others it'll go away  
Or maybe this is danger and he just don't know  
You pray it all away but it continues to grow

I want to hold you close  
Skin pressed against me tight  
Lie still, and close your eyes girl  
So lovely, it feels so right

I want to hold you close  
Soft breasts, beating heart  
As I whisper in your ear  
I want to fucking tear you apart

Then he walked up and told her, thinking that he'd passed  
And they talked and looked away a lot, doing the dance  
Her hand brushed up against his, she left it there  
Told him how she felt and then they locked in a stare

They took a step back, thought about it, what should they do  
'Cause there's always repercussions when you're dating in school  
But their lips met, and reservations started to pass  
Whether this was just an evening or a thing that would last

Either way he wanted her and this was bad  
He wanted to do things to her it was making him crazy  
Now a little crush turned into a like  
And now he wants to grab her by the hair and tell her

I want to hold you close  
Skin pressed against me tight  
Lie still, and close your eyes girl  
So lovely, it feels so right

I want to hold you close  
Soft breasts, beating heart  
As I whisper in your ear  
I want to fucking tear you apart
