

If One of Us Goes Further

Burning Brides

Waste of love

Waste of our time

You have yours and I have mine

Brick by brick

Building gets tall

And then the building falls

And then the building falls

Hey little girl, you're all right

If one of us goes further

We ain't never gonna make it, make it back

Yeah baby

If one of us goes further

We ain't never gonna make it, make it back

Yeah honey

Change has come

Change with me

What ever's meant to be will be

What ever's meant to be will be

Hey little girl, you're all right

If one of us goes further,

We ain't never gonna make it, make it back

Yeah baby

If one of us goes further

We ain't never gonna make it, make it back

Yeah sugar
