

Hurricane

NEEDTOBREATHE

In the fallout now
It's hard to feel like we can turn around
With the damage done
It's hard to see how far we've come We could not be proud
Of where our feet have walked along the ground
In the silence now
We play it back and forwards again There's a sound in our guiltiness
It's a warning bell that rings
It's a call, so our loneliness
We can't see We roll the dice, we play like fools
Plead with time to change the rules
It's like a hurricane is coming our way
We've all been warned but we still chose to stay I can't believe it now the time has come
I can't believe it now the time has come Play the victim here
You know it's nothing but your pride and fear
But the more you hurt
The more you love the one you were There's a sound in our guiltiness
It's a warning bell that rings
It's a call to our loneliness
We can't see We roll the dice, we play like fools
Plead with time to change the rules
It's like a hurricane is coming our way
Yeah, we've all been warned but we still chose to stay I can't believe it now the time has come
I can't believe it now the time has come In the light of the mourning
Can we change what we felt and heard?
Can we turn it into the glory?
Break the paths of our fathers before us Though we stand on the outside
We will find what we once believed
And will crawl our way to the clear skies
Standing up we are, standing up we are Oh, we roll the dice, we play like fools
Plead with time to change the rules
It's like a hurricane is coming our way
Yeah, we've all been warned but we still chose to stay I can't believe it now the time has come
I can't believe it now the time has come
