I See Red

Ghoti Hook

She wore blue
her back of blue shoes
she wore green, they wear it anyway
She and the car
went back through the red light
stop i forgot all my memories
I see red when I see you
bells ring at 3 Am
I get mad, drinks get spilled
Five past two I dont feel sad
But then I see you and I see redI cant look down
Or I might follow you
I might follow in your footsteps
I see your shoulder the sun down
Whats the luck
And I had to hunt, I had to hunt youI see red when I see you
bells ring at 3 Am
I get mad, drinks get spilled
Five past two I dont feel sad
But then I see you and I see redDont feel sad
But then I see you
Dont feel sad
But then I see you
And I see redHe sees the sun come up and she needs to rest
Here it comes creeping so close to the bed
Goodbye to darkness I see your shining face
Shes always thinking about the facts of loveI see red when I see you
bells ring at 3 Am
I get mad, drinks get spilled
Five past two I dont feel sad
But then I see you and I see red
