

Love Me Again

Big Time Rush

Make you love me again
Make you love me againMillion girls in the world but tonight i'm alone
I'm alone cause you can't come close
One girl that i'm looking for, there there she goes
I lost you once so, so i'm asking now
Give me a chance this time aroundWe were so young
Just having fun
Messed it up, had a love
That was beautifulWhen we dance
Heaven opens up
So I just thought that I would let you knowBaby, now I should've never let you go
So my heart is coming back for more
I want to hold you like I did before
So baby take my hand, take my handI'mma make you love me again (make you love me again love me again)
I'mma make you love me again (make you love me again)
I'mma make you love me againTell you want my time
I want to make you mine,
In mind what you wanna do
Baby girl it's up to you uh-up to you
I'll do what I have to, to get you back
Until you love, love me again
Ooh girlWe were so young
Just having fun
Messed it up, had a love
That was beautifulWhen we dance
Heaven opens up
So I just thought that I would let you knowBaby, now I should've never let you go
So my heart is coming back for more
I wanna hold you like I did before
So baby take my hand, take my handI'mma make you love me again (make you love me again love me again)
I'mma make you love me again (make you love me again)
I'mma make you love me againI wanna make you
Imma make you love me again
Baby, now I should've never let you go
So my heart is coming back for more
I wanna hold you like I did before
So baby take my hand, take my handI'mma make you love me again (make you love me again love me again)
I'mma make you love me again (make you love me again)
I'mma make you love me againEy ey

Love me again
Ey ey
Love me again
Ey ey
Love me again
(Make you love me again love me again)
