Cherry Blossom Tree

Imaginary Cities

I hiked out to the country
On a path of self discovery
But all I found was a cherry blossom tree
As I believe in harming melodies
Hypnotized by a silent breeze
The of this cherry blossom treeSo cross me cherry blossom tree
For you have witnessed it all
You've seen the world change suddenly
At it's height and at it's fallYour falling leaves turn gold and red
Prepare for the winter so long ahead
That's the same for my sweet little cherry blossom treeSo cross me cherry blossom tree
For you have witnessed it all
You've seen the world change suddenly
At it's height and at it's fall
Cross me cherry blossom tree
For you have witnessed it all
You've seen the world change suddenly
At it's height and at it's fallSo cross me cherry blossom tree
For you have witnessed it allCross me cherry blossom tree
For you have witnessed it all
You've seen the world change suddenly
At it's height and at it's fall
Oh, cross me cherry blossom tree
For you have witnessed it all
You've seen the world change suddenly
At it's height and at it's fallFor you have witnessed it all
