

Real Cool World (Radio Remix)

David Bowie

So far this love is delightful
The face of seduction was you
But I listened for each and every footstep
In this Real Cool World Questioning saintlike and fantastic heroes
Feeling like lost little children in fabled lands
So I listen for each and every friendship
In this Real Cool World Now there is you
In my Real Cool World Starry-eyed life but somehow believing in nothing
You whisper sweet nothing but reading between your lines
I listen color me doubtful
In this Real Cool World
Now there is you
In my Real Cool World You came from nowhere
You came from nowhere
You held me you shook me
Hey It's a Cool World
It's a Cool World It's a Real Cool World
It's a Real Cool World
It's a Real Cool World
It's a Real Cool World Now there is you
In my Real Cool World
Now there is you
In my Real Cool World Mmmm
Real Cool World
