

# Wanna Get High

## Cypress Hill

I want to get high, so high  
I want to get high, so high  
I want to get high, so high  
I want to get high, so high Well it's the funk elastic  
The blunt I twist it  
The slammer five  
Buddha fine  
Funk on your desk, es'  
Oh what you missed this  
You got to bear witness  
Catch a ho', and another ho'  
Merry christmas  
Yes I smoke shit  
Straight off the roach clip  
I roll shit  
Fold the blunt  
At once  
To approach it  
Forward motion  
Make you sway like the ocean  
The herb is more than just a powerful potion  
What's the commotion  
Yo I'm not joking around, people learnin'  
'bout what they're smoking  
My oven's on high when I roast the quayo  
Tell bill clinton to go and inhale  
Exhale  
Now you the phunk of the thai'  
When I feel the effects I want to get high, so high  
I want to get high, so high  
I want to get high, so high  
I want to get high, so high
