

The Kids From Kibble and the Fist of Light

Biffy Clyro

Say nothing's better
(You say nothing better)
Say nothings better than the rest
Say hope youre better than the rest
'Cause you talk a good game Your sensations are suffering
Ill make your sensations suffer
Through these long sadistic eyes And you see the way I collide with you
I hope you see straight
Tonight Im in a rage
Tonight Im in a range Say nothing's better than the rest
'Cause you talk a good game My sensations are suffering
My sensations are suffering
Through these long sadistic nights And you see the way I, collide with you
I hope you see straight
Tonight Im in a rage
Tonight Im in a range Once again, youve missed the point These strange explosions hit me, like a fist of light
These strange explosions hit me, like a fist of light
These strange explosions hit me, like a fist of light
These strange explosions hit me, like a fist of light These strange explosions hit me, like a fist of light
(Do you believe that I can?)
These strange explosions hit me, like a fist of light
(Do you believe that I can?)
These strange explosions hit me, like a fist of light
(Do you believe that I can?)
These strange explosions hit me
