I am patiently awaitin' on you to get dressed girl, yeah
I'm gonna sit here while you put your face on
Playin with your makeup, oh Damn you look so good it hurts me
The design of your body is perfect, oh, oh, oh, oh, yeah
I don't deserve you girl And I'm like stop, stop
Let me take a mental shot of this moment, yeah
Ooh, baby drop, drop
Everything you doin right now and just hold it
Click, click, click Pose for me, pose for me
Come on and pose for me, pose for me
My camera loves you You are fashion, the latest style on the scene
Girl I meant it, yeah
I am the reacting, loosin the cool in my knees
And I'm feenin for you And girl every time I click I go crazy
You kept the lens in my camera safe, oh, oh, oh, oh, yeah
I don't deserve you girl And I'm like stop, stop
Let me take a mental shot of this moment, yeah
Ooh, baby drop, drop
Everything you doin right now and just hold it
Click, click, click Pose for me, pose for me
Come on and pose for me, pose for me
My camera loves you girl Click, click, click with my Nikon, click with my Sony

One that I dream for, one I pull the cream for
I take a shot of the hottie that I feen for So make a pose for me, take off your clothes for me
Cause you and me is the way its supposed to be
Yeah ma, let me lay you on the sofa, slide a little closer
Fly you to the coast of Jamaica, take a shot of you on the beach Click, click, click flash wind and release
In your summer dress wanna peep
Whats beneath there and tell you girl
[Incomprehensible] secret And I'm like stop, stop
Let me take a mental shot of this moment, yeah

Ooh, baby drop, drop
Everything you doin right now and just hold it
