Oddity

Oneduality

This is the way it's got to be
This is the way it's got to be
This is the way it's got to beI crawl beneath this filthy ground
And underneath this dirty ground
I crawl beneath this filthy ground
And underneath these dirty leavesIt seems to me to be the insanity
It seems to me I've become the oddity
It seems to me I need some identity
It seems to me I've become the oddityKeep this high now keep this high
I said, "I better keep this high now keep this high"
I said, "I better keep this high now keep this high"
I said, "I better keep this high now keep this high"I crawl beneath this filthy ground
And underneath this dirty ground
I crawl beneath this filthy ground
And underneath these dirty leavesIt seems to me to be the insanity
It seems to me I've become the oddity
It seems to me I need some identity
It seems to me I've become the oddityKeep this high now keep this high
I said, "I better keep this high now keep this high"
I said, "I better keep this high now keep this high"
I said, "I better keep this high now keep this high"This is the way it's got to be
This is the way it's got to be
This is the way it's got to beThis is the way
This is the way
This is the way it's got to beThis is the way it's got to be
This is the way it's got to be
This is the way it's got to beNo fear, so depraved
No fear, so depraved
No fear, so depraved, breakThis is the way it's got to be
This is the way it's got to be
This is the way it's got to beThis is the way
This is the way
This is the way it's got to be
