Ordinary Day

Nick Lachey

I wish I could tell you the things I never got the chance to
I wish I was with you now to see your smile again
I wish we had more time but time goes by so fast
A moment comes and then the moment passes by
In the blink of an eye and if I had one wishI wouldn't ask for money, I wouldn't ask for fame
I wouldn't ask for the power to make this world change
If I could have one thing that one thing that I would choose
Is one more ordinary day with you, with youI wish I could see you and be there where my arms could reach you
I wish I can let you know how much you touch my life
Maybe a little time is all the time we get
The words we long to say are words that go unsaid
You can't go back again but if I had one wishI wouldn't ask for money, I wouldn't ask for fame
I wouldn't ask for the the power to make this world change
If I could have one thing that one thing that I would choose
Is one more ordinary day with youI wish we had more time, time goes by so fast
The moment comes and the moment passes by
In the blink of an eye and if I had one wishI wouldn't ask for money, I wouldn't ask for fame
I wouldn't ask for the the power to make this world change, no
If I could have one thing that one thing that I would choose
Is one more ordinary day, just one more ordinary day with you, with you
