Remember Me

Bo Bice

Advisory - the following lyrics contain explicit language:

The dawn is close and sheds its light on me
It makes me feel like what we had was really nothing at all
Now do you care but am I in this alone
But maybe I am, oh if I amRemember me, remember all the times
All those endless nights we didn't want to sleep
Oh, remember me and how I made you laugh
Until I made you cry, we had everything
But don't you ever forgetSo this is love, it feels like agony
I want you here 'cause the thought of you
With someone else is hell on earth
I can't breathe knowing that you don't believe
In all that we had, so all that I askIs remember me, remember all the times
All those endless nights, we didn't want to sleep
Oh remember me and how I made you laugh
Until I made you cry, we had everything
Oh, but don't you ever forgetAll of the memories are leaving me empty
Oh how I want you here right now
It gets so lonely, I need you to hold me
Everything else just brings me down
Oh yeahRemember me, remember all the times
All those endless nights, we didn't want to sleep
Oh remember me and how I made you laugh
Until I made you cry, we had everything, everythingSo don't you ever forget
Never, never, forget
Remember me
