

Save The World (on the Dancefloor)

Sonny

Verse1

Give me a beat beat beat
Come rock that boom boom tonight
I'm in the spot spot spot
To rock your body all night
I wanna feel feel feel
I feel like holding you tight
I'm in the light light light
I'm feeling right right right
Living it up

PreChorus

I don't know what your waiting for
Get your back off the wall
And go hit the floor

I don't know what your waiting for

The time is running out and you get no more

Chorus

Now is the time to get down
Ain't nothing stopping us now
We burning up on the floor
Like the Worlds ending now
I don't know know know
What what your waiting for
Feels like the last night of the World

Uh oh

Dance like it's the end of the World

Dance like it's the end of the World

Verse2

I'm on the move move move
I feel like robbing the night
A criminal nal nal
Be baggin' all girls insight
I'm letting go go go
I got no cares for tonight
It's going down down down
When I'm around round round

Living it up

Wanna see how long it takes before you give up
Wanna see if you can rock this party straight to the moon

Yeah

Don't be afraid to keep both your hands up

Start living

Live your life life life

That good life life life
Living it upChorus
Now is the time to get down
Ain't nothing stopping us now
We burning up on the floor
Like the Worlds ending now
I don't know know know
What what your waiting for
Feels like the last night of the World
Save the World
Save the World
Save the World on the dance floor
Save the World
Save the World
Save the World on the dance floorBridge
It's like no one else exists
We were close just like this
All I want is your Kiss
So come get it like a mission baby
If I was your girl
At the end of the World
Show me you can save us on the dance floor
