Trenches

36 Crazyfists

TrenchesReckless abandon, coming undone
Survive the swallow, decade of ruin goneI found myself in trenches tonight
Regret runs wild as darkness kills
All the lights
All the lights have died
Slow dose of hell stripping what's left
Sleepless for days on endAnd ingest life on all sidesI can't be reached in this soulless design
Capsized my insides, hours inch by
Inviting the lions to all take a piece
Destroyed by endless ends, looking to ceaseSearching the city, to no avail
Can't find me anywhere, winds out of sailI found myself in trenches tonight
Regret runs wild as darkness kills
All the lights
All the lights have died
Slow dose of hell stripping what's left
Sleepless for days on endAnd ingest life on all sidesI can't be reached in this soulless design
Capsized my insides, hours inch by
Inviting the lions to all take a piece
Destroyed by endless ends, looking to ceaseI need a search light to make amends
From the insides out, out, out, out, out
On the strength of it's test
Full blooded sense of life, life, life, life, lifeGhosts remain on auto pilot
Looking to cancel out
Brief breath of air in darkness
Survive in doubtI can't be reached in this soulless design
Capsized my insides, hours inch by
Inviting the lions to all take a piece
Destroyed by endless ends, looking to ceaseAnd ingest life on all sides
And ingest life
