

Live It Up Before You're Dead

Powerman 5000

You got to use it or lose it
Take it, abuse it
Push it to the edge
You got to set it on fire, full of desire
Live it up before you're dead You got to break it and bend it
Never pretend it
Push it to the red
You got to rock it, roll it
Smash it, control it
Live it up before you're dead
We're all on top of the world tonight
Blowing up big like dynamite
Rolling over every last thing in sight
We're bringing mother fucking bombs to a
Fucking knife fight
