

Close the Door

The Holmes Brothers

I'll ask you once, look in my eyes
Is it gonna work is my advice
Have a little trust in me, I love you
Baby, can't you see? It's a lie and I don't care
Have a little faith it's only fair
That you trust in me I love you
And you'll always be here
A piece of my heart
My peace of mind that's for sure
'Til you close the door to giving to giving
Don't call it quits, it would be a shame
Our little fits would be to blame
I'd give all of me and my precious time
I'm not afraid to give and what's mine is mine
I'll ask you once, look in my eyes
Is it gonna work is my advice
Have a little trust in me I love you
And you'll always be, oh
A piece of my heart
My peace of mind that's for sure
'Til you close the door to giving, to giving
'Til you close the door to giving
Close the door to giving
Close the door to giving
